

May 7, 2024

Good morning, I.S 201! This is Nicole from class 851 here for Talk a Lot Tuesday on behalf of the S.E.A.L. Team.

You might have noticed that this week is Teacher Appreciation Week. Teacher Appreciation Week is a celebration of the hard work and care that teachers provide us. I want to dedicate today to give a shout out to our Art and Math teachers.

Art teachers work hard to cultivate our sense of creativity and constantly find ways to test our imagination. They teach us techniques that allow us to both broaden and narrow our perspectives. With innovative approaches and clever projects, art teachers help us transform our dreams into real-life artwork.

On the other hand, math teachers are hard at work developing our problem-solving and critical thinking skills. They develop our understanding and connection between abstract ideas and real-world situations. Moreover, with the Math State Test and Algebra Regents right around the corner, our math teachers have been working harder than ever to prepare us and gear us up for success.

Throughout Teacher Appreciation Week, make sure to express your gratitude towards your teachers and their tireless efforts in making sure you receive top-notch education.

Thank you and have a Thank Your Teachers Tuesday!

SEAL Team pledge:

We are the Dyker S.E.A.L. Team

Positivity is our dream

We teach it every day

To help others live the optimistic way

We learn to control our emotions and feelings

So, we always have effective social dealings

No stone left unturned; no person left behind

Every member of our team has the power to be kind

We spread kindness to our friends, families, and those who need a smile

When facing hardships and adversity, the S.E.A.L. Team goes the extra mile
